Education & Academic Employment

2024 - Present

■ **Princeton University AI Lab**, Princeton, New Jersey.

Postdoctoral Research Fellow

2019 - 2024

■ University of California, Los Angeles, Westwood, California.

Doctor of Philosophy in Computer Science

Advisor: Quanquan Gu

Dissertation Committee: Quanquan Gu, Guy Van den Broeck, Lieven Vandenberghe, Aditya

Grover, Mengdi Wang

2015 - 2019

■ Peking University, Beijing, China.

Bachelor of Science in Machine Intelligence

GPA: 3.83/4.00, Rank: 1/53, Summa Cum Laude.

Thesis Advisor: Liwei Wang

Highlighted Projects

■ SPPO: Self-Play Preference Optimization for LLM Alignment 2024.4

> Propose to directly align LLM with the preference instead of using an approximate reward model such as Bradley-Terry, and a new RL-based learning objective to maximize the probability of being preferred. Design principled self-play training framework and approximate solution based on iterative fine-tuning on synthetic data generated by the reference model.

■ General Preference Model with Preference Representations 2024.9

> Propose a more principled, efficient way of modeling general preferences instead of the ad-hoc pairwise prompting and prediction. The new method can efficiently predict preference among a group of text completions and be further utilized to align LLMs.

Honors and Awards

- Dissertation Year Fellowship, University of Calofornia, Los Angeles.
- 2017 China National Scholarship, Peking University.
- **Founder Scholarship**, Peking University.

Invited Talks

- 2024.4 Learning from Preference Feedback

 Department of Electrical and Computer Engineering, Princeton University.
- Learning from Preference Feedback

 Laboratory for Information and Decision Systems, Massachusetts Institute of Technology.

Teaching Experience

Winter 2021,22,23 UCLA CS 161: Fundamental of Artificial Intelligence

Teaching Assistant

Re-formulated the course homework and projects, as well as designed mid-term and final exams.

Spring 2023 UCLA CS 31: Introduction to Computer Science

Teaching Assistant

Fall 2020 UCLA CS M51A: Logic Design of Digital Systems

Teaching Assistant

Academic Services

Reviewing

■ NeurIPS, reviewer

■ ICLR, reviewer

■ AISTATS, reviewer

2022 AAAI, Senior PC member

Industrial Experience

2024 Meta, Bellevue, Washington

Research Scientist Intern, Gen AI

Worked on token-level reward modeling and new architecture design for general human preference and general preference optimization.

2023 **Bytedance AI Lab**, Los Angeles, California.

Research Scientist Intern, Drug Discovery

Worked on multi-conformation generation of large protein molecules. Incorporated physical priors of molecular dynamics into diffusion-based generative models. The paper is accepted in ICML 2024.

2022 NEC Laboratories America, Princeton, New Jersey

Research Intern, Data Science and System Security

Worked on personalized federated learning and developed a method based on mixture models. The paper is accepted in ICML 2023.
